# The next revolution in Mobile Gaming

Q1 2021

Music streaming was the first groundbreaking on-demand service and is now well established with hundreds of millions of users (Spotify, Apple Music, Pandora and more).

Video on demand continued the streaming boom with Netflix, Amazon Prime, HBO and many others now present in almost any household.

The next revolution is gaming on demand! Miggster Plus cloud gaming allows you to stream premium games to any device without the need for a gaming console or other hardware.

# Ultimate Performance, without the hardware

You don't need to buy expensive hardware (e.g. Xbox, Playstation, gaming PC). The entire Miggster game library is hosted in the Miggster Game Cloud, passed through our super-powered servers and then streamed to your screen!

Q1 2021

# Premium games, as much as you want!

With Miggster Plus you can play a huge selection of premium games that you never thought would be possible on your mobile phone.

There is also no need to pay for every game.  
Play any game you want, anytime!
